Astra Fluorescent Luminaire

AR-SN
3001

Recess mounted fluorescent fitting with bright aluminum single parabolic louvers with stepped transversal blades. This insures a high performance with good visual comfort and an economical solution intended for universal use.

AR-SB
3002

Single parabolic bright reflector made of preanodised high quality low iridescence aluminum with christmas tree stepped transversal blades, offering a high light output ratio and a uniform distribution of light flux.

AR-DB
3003

Double parabolic bright reflector made of preanodised, high quality, low iridescence aluminum. This luminaire insures a low luminance at cut-off angles and exceptional visual comfort where extensive use of VDT's is required. The high gloss reflector has a dark light effect.

AR-DM
3004

Double parabolic matt-finish high performance reflector made of preanodised, low iridescence high quality aluminum. This low glare fixture has the advantage of minimizing the contrast between the ceiling and the louver making it suitable for intensive use in VDT areas.

AR-PR
3005

Prismatic methacrylate diffuser enclosed in a tight aluminum frame finished white equipped with a sealing gasket (optional) and spring catches for easy maintenance. IP 44 optional

AR

Functional, high quality recessed luminaires for exposed ceiling grids of 15mm or 24mm T's. Housing made of electrostatically painted sheet steel with white epoxy-polyester powder paint.

The improved efficiency renders this fixture suitable for the intensive use in:

- Banks
- Office areas
- Commercial areas
- Schools
- Hospitals

This fixture is designed and tested according to international norms requirements where all edges are curved for increased security in installation and maintenance.

The wide range of applicable louvers insures a combination of comfort, uniform lighting and improved efficiency [Cat 2].

Each louver is fixed with four springs and can be lowered and hung from either side for maintenance without tools.
