Aluminum connection detail

Starline is a new series of suspended and surface mounted decorative modular luminaire that can be installed in a continuous single row. This very slim and compact fixture is designed to fit in any environment.

A metallic grid is used as a light cover to increase the efficiency of the luminaire and to meet the cat 2 requirement.

The sheet steel enameled is painted with epoxy-polyester powder coating.

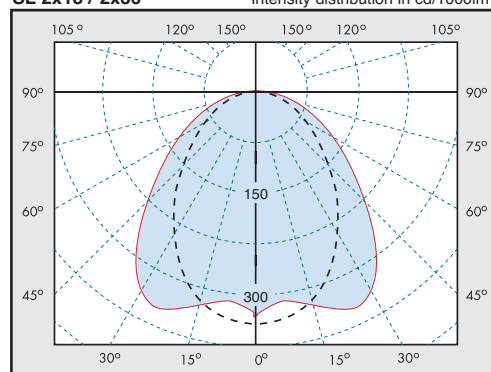

Starline is available in white. On request it can be delivered in metallic grey or black.

It is suitable for:

- Banks
- Offices
- Commercial areas
- Hospitals
- Showrooms
- Clinics
- Malls
- Universities
- Schools

**SL 2x18 / 2x36**

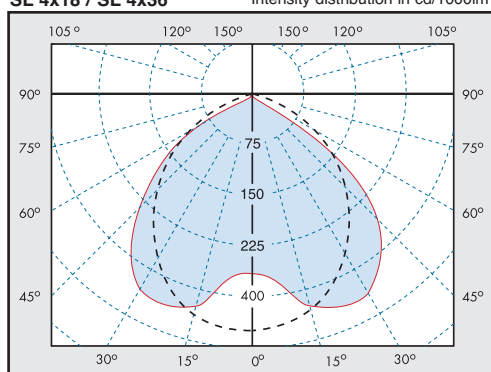

Intensity distribution in cd/1000lm

Efficiency 53%

**SL 4x18 / SL 4x36**

Intensity distribution in cd/1000lm

Efficiency 52.84%
