

Virtual Light VLI

VLI 8801

Private House

Reflection plate detail

Astra Virtual source is a medium floor lamp of 1300mm height. The flux can be controlled with the aid of a flexible aluminum plate.

This indirect light gives very high visual comfort. A harmonious brightness distribution maximizes the reflection of light on objects. A 50 W dichroic lamp with an angle of 10° is used.

The body is made of extruded aluminum that can be painted with powder paint in grey, white or black on request.

Can be used in:

- Exposition halls
- Living rooms
- Offices
- Museums...
